

SHE BOSS

support women owned bussiness

**Team Name:Path-Finder
Tabia Tanzin Prama
Jahangirnagar University**

Inspiration

- There is no limit to what we, as women can accomplish. So it is the duty of every woman to support each other, empower each other.
- At this time of the crisis, we believe that our small entrepreneur could support other women and help everyone stay safe and happy at their homes, while help them buy things they need.

What it does

She boss is a website, through which we can find women owned enterprises easily, connect new emerging enterprises with the buyers, by registering in our site, and help them find new products. So, any woman willing to start their business career could register at the site, sell their products, staying safe and happy at home.

How I built it

01

Our website She Boss, is built on the Flask framework

02

The entire code has been developed using Php programming language.

03

The frontend is designed using HTML, CSS, and Bootstrap.

Challenges I ran into

Database
crashing

Hard to find
business
database

Accomplishments that we're proud of

We are proud of learning new skills, host a website, and could support women and connect people to purchase and sell business products and home made products as well, staying safe and happy at home, in the way we could

THANK
YOU!
